

Blauer®

20/21

Blauer®

Da oltre 60 anni Blauer è il marchio leader in America nel campo delle forniture di capi tecnici a tutti i corpi di polizia e ad alcuni settori scelti dell'esercito, ufficiali della U.S. Navy o i corpi speciali posti a protezione della White House a Washington. La costante attenzione verso la funzionalità dei capi e l'innovazione stilistica e tecnologica ha consentito a Blauer di conquistare una posizione di assoluto dominio del mercato delle divise. Il motto dell'azienda è "Uncompromising Performance", vale a dire "prestazioni senza compromessi".

I capi Blauer per il mercato del fashion sono disponibili in Italia e in tutto il resto del Mondo grazie a FGF Industry Spa e sono diretti ad un pubblico amante dei marchi tradizionali made in U.S.A., dei capi tecnici che possano vantare una storia e fregiarsi a pieno titolo dell'appellativo di "autentico-originale" pur se migliorati dal punto di vista di comfort e vestibilità con l'adozione di caratteristiche e volumi indispensabili per il mercato Europeo.

Successivamente è stata introdotta Blauer HT, una linea di caschi e abbigliamento all'avanguardia creata secondo criteri di tecnica, praticità e high performance. I materiali usati sono tecnologici, innovativi e performanti con caratteristiche di idrorepellenza, traspirabilità, impermeabilità e protezione anti-vento. Studiata per il moderno "urban traveller", Blauer HT si ispira alla superiorità funzionale e all'innovazione tecnologica per aumentare il livello di comodità e la libertà di movimento. La semplicità delle linee, le colorazioni ricercate e particolari, l'esclusività degli abbinamenti cromatici rendono questi capi un punto di riferimento per il nuovo rider.

Sicurezza, tecnica e innovazione sapientemente abbinati ad eleganza, design e passione rendono i nostri caschi dei Blauer Helmets.

Blauer HT è distribuita attraverso una selezione dei migliori negozi specializzati del settore moto e fashion.

From over 60 years Blauer is the leading brand in America for supplying technical garments to all law enforcement and to some select sectors of the U.S. Army, U.S. Navy officers or the commando guarding the White House in Washington. The constant attention to the garments functionality and the stylistic and technical innovation has allowed Blauer to achieve a prevailing position on the market of the uniforms.

The Company "motto" is "Uncompromising Performance".

These garments are available in Italy and Europe, for the world of fashion, thanks to FGF Industry Spa. They are addressed to a public keen on "made in U.S.A." brands and on technical items which could boast their own history and claim the title of "authentic-original" even if improved in comfort and fitting adopting characteristics and shapes which are necessary for the European Market.

Blauer HT was born as a development of the brand. It is a cutting edge clothing line created following technical, functional and high performance standards. The fabrics are technologic, innovative and performing and they have highly technical characteristics such as transpirability, permeability and wind resistance.

The collection is studied for the cosmopolitan "urban traveller", Blauer HT is inspired by functional superiority and technological innovation in order to increase the quality of comfort and the freedom of the motion. Thanks to the line simplicity, the refined and particular shades, the exclusivity of the chromatic matches, these helmets are a reference point for the new rider.

Safety, technicity and innovation wisely mixed with elegance, design and passion make our helmets "Blauer Helmets".

Blauer HT is presented through a selection of the best specialized shops of the motorbike and fashion world.

Pilot 1.1

Code: 12CBKHU01007.HS0001

Color: H07 (BLACK MATT)

Color: H69 (GRAY MATT)

TECHNICAL CHARACTERISTICS

- . Shell in two sizes: XXS/S Weight: 980 gr +/- 50 gr / Sizes: M/HL Weight: 1050 gr +/- 50 gr
- . External shell: Fiberglass
- . Varnishing with special paints for increased weather resistance
- . Internal antiscratch sun visor 50%
- . Inner lining : Removable and washable
- . High sweat absorption fabric with silver ion treatment for anti-bacterial action
- . Chinstrap with Micrometric buckle quick release system
- . Homologation: E3 ECE2205

Pilot 1.1 Monochrome

Code: 12CBKHU01007.HS0002

Color: H07 (BLACK MATT)

Color: H80 (TITANIUM)

TECHNICAL CHARACTERISTICS

80's

Code: 12CBKHU01011.H00014

Blauer
H.T.

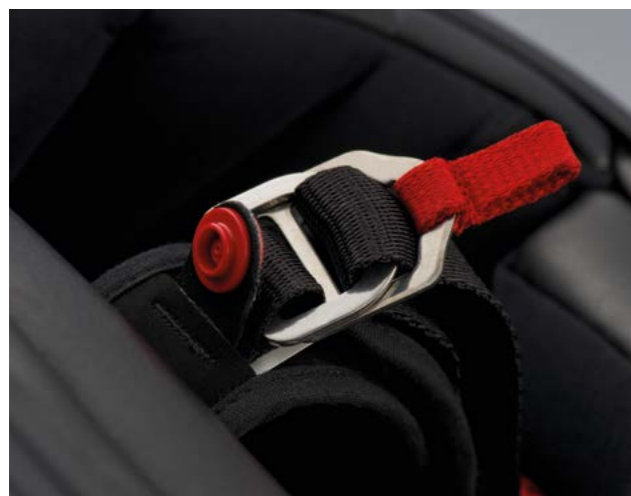

Color: H02 (WHITE)

Color: H80 (TITANIUM MATT)

TECHNICAL CHARACTERISTICS

- Sizes: XS/XL Weight: 1100 gr +/- 50 gr
- External shell: Tri-composite Dyneema/Carbon/Aramid Fibre e Epoxy Resin
- Chopper EPS with double layer differentiate density to improve shock resistance
- Double - D chin strap
- Washable internal linings in sanitized fabric
- Homologation: E3 ECE2205

Color: H119 (BLACK MATT/YELLOW)

TECHNICAL CHARACTERISTICS

- Shell: double size, high impact ABS.
- Sizes: small shell XXS-XS-S / large shell M-L-XL.
- Multilayer EPS (Thermacol) high and low density.
- Antiscratch coated visor.
- Specific paints used to increase resistance to atmospheric agents.
- Ventilation: Top air vent and rear extractors for a high air circulation.
- Inner linings: Removable comfort padding, Sanitized treatment.
- Fastening: micrometric buckle.
- Homologation: E3 ECE2205.
- Designed in Italy.
- Weight: gr. 1000 ± 5000

Color: H116 (WHITE/BLACK)

Jackets

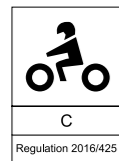

Color: 888 (BLUE)

Color: 664 (GREEN)

TECHNICAL CHARACTERISTICS

- Sizes: S/3XL
- Composition: 100% Double-layer water-repellent nylon
- Elbow Protectors = EN 1621-1 - liu.2
- Jacket realized in three-layer nylon with a classical bomber cut. Suitable for elbow protections (included), shoulder and back protections (not included). The frontal zip pocket is also an air intake with outlet positioned at the back.

Color: 888 (BLUE)

TECHNICAL CHARACTERISTICS

- Sizes: S/3XL
- Composition: 100% Double-layer water-repellent nylon
- Elbow Protectors = EN 1621-1 - liu.2
- Jacket realized in three-layer nylon and Lycra mesh with a denim jacket cut. Suitable for elbow protections (included), shoulder and back protections (not included). The frontal mesh allows a higher air circulation which is helped by the outlets positioned at the back. Press buttons covered with rubber. Waist bottom with elastic at the back for a higher comfort.

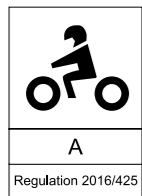

Color: 647 (GREEN)

Color: 888 (BLUE)

TECHNICAL CHARACTERISTICS

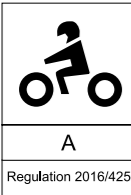

- Sizes: S/3XL
 - Composition: 100% Double-layer water-repellent nylon.
 - Elbow and shoulder Protectors: EN 1621-1 - liu.2.
 - Water Resistance: Water Column 10K (JIS Standard).
 - Suitable for elbow and shoulder protections (included), back protections (not included).
- Frontal zip with double slider and snap button at the bottom. Neck closure with snap button.
Waist drawstring. Cuff with internal gaiter and adjustable snap button fastening. 2 frontal air-inlets with outlets at the back all closed by zip.
Invisible internal pocket and internal document pocket.

Color: 647 (GREEN)

TECHNICAL CHARACTERISTICS

- Sizes: S/3XL
 - Composition: 100% Double-layer water-repellent nylon.
 - Elbow and shoulder Protectors: EN 1621-1 - liu.2.
 - Water Resistance: Water Column 10K (JIS Standard).
 - Suitable for elbow and shoulder protections (included), back protections (not included).
- Frontal zip with double slider, jersey bottom and snap button closure. Cuff with internal gaiter and adjustable snap button. Neck interior in jersey. Internal invisible pocket and internal document pocket.
